

Expression of Interest: Independent Fellowships

Thank you for your interest in applying for an Independent Fellowship through the Department of Chemistry at Oxford. Early-career scientists play a crucially important role in the research carried out here and we are delighted to offer support where we can. Many early-career researchers supported by the Department go on to hold permanent academic posts at Oxford and at other excellent institutions. The information on this form will help us identify the extent to which we are able to support your proposed research, and to identify the best ways in which we can assist with preparation of your Fellowship application.

We encourage applicants from all backgrounds to apply, even if you are not yet certain of your precise Fellowship plans and/or best fit within the Department. We are particularly keen to hear from individuals with varied expertise who can bring new perspectives to our research portfolio.

Name of applicant: [Click here to enter text.](#)

Research Overview

Brief summary of your research proposal. (*max. 500 words*)

Transition to Independence

Provide a concise explanation of how the selected fellowship(s) will support your transition to independence. Discuss how the fellowship, your project, and the department could collectively facilitate this transition. (*max. 250 words*)

Equipment, Space and Facilities

Do you plan to request equipment in your application? What laboratory space will you require? Will you need access to the department's small research facilities? (NMR, mass spec, etc.).

Additional Information

Provide any further details relevant to your application (for example, details of career breaks if you wish to disclose them).

Please email this **EoI form, your CV, and contact details of two referees** to Katie Winter at katie.winter@chem.ox.ac.uk and copy in Research Facilitation at research-facilitator@chem.ox.ac.uk.

What happens next? Our Research Facilitation team will follow up with you to identify any further information that we may require and to provide any additional guidance on appropriate Fellowship opportunities. The Department may then organise an interview with Faculty members to discuss your application further.
